**V. New Business**

**A. Loan Approval or Denial: Kenneth E. Gossert:** Ken Gossert, commercial fisherman, is a recipient of a Carl Moyer Grant Award from the North Coast Unified Air Quality Management District (NCUAQMD). The purpose of the grant program is to fund replacement of older gross polluting engines and machinery with new, cleaner than required ones. This includes engines for commercial fishing vessels. The terms of the grant are that the work must be completed and paid for before funds are reimbursed to the recipient. The work needs to be completed by the Dec. 1, 2009 start of crab season.

This loan request is for \$58,400 to purchase and install a new engine in a commercial fishing vessel, "The Persistent". This would be a 90-day term loan (LOC), EDA, at 10% fixed rate. \$58,400 is 80% of the cost of the engine and installation. Borrower is contributing \$17,663 of his own money.

Attempts to secure an assignment of the grant money have not been successful. The loan will be collateralized by a lien on "The Persistent" through a U.S. Coast Guard Homeland Security filing.

A motion was made to recommend this loan to the RREDC Executive Committee for approval. **M/S/P: Scolari/Sweet**

**VI. Adjourn**

The meeting was adjourned at 4:23 p.m.
