C. Letter of Support for SB 1040 (Padilla) to Increase Funding for the California Advanced Services Fund and to Delete the Sunset Date for the Fund: The summary of SB 1040 (Padilla) says it “would increase funding for the California Advanced Services Fund (CASF) by an additional \$125 million over five years to support broadband deployment statewide and position California to maximize opportunities under the new National Broadband Plan.”

CASF has provided support for the Highway 36 fiber optic project and is considering setting aside monies for a project along Highway 299 that would connect Humboldt and Shasta Counties.

M/S/P: Schapiro/Atkins to authorize staff to send letter of support for SB 1040 to the appropriate persons.

D. Consideration of Letter of Support for CPUC Resolution T17280 (regarding funding for broadband projects along Highway 299): In 2009 CASF awarded a grant to provide 40% of the capital cost for the deployment of a fiber optic line and other facilities that would provide service along the Highway 299 corridor from Humboldt to Shasta Counties. Two conditions of the project were not met and the project was stalled. CASF has proposed rescinding the award, but has identified the area as a priority. Funds allocated to the project will be reserved for other applications to provide service to this area.

M/S/P: Wilson/Rupp to authorize staff to send a letter of support for the resolution.
